Ryan Zynger, founder of Zynger Events, has almost three decades of hands-on event production from his home in Southern California spreading across the globe. A serious proponent of changing the world through events, he has championed cause-related programs for the important issues facing our world today.

Ryan's creative and skillful approach as an Executive Event Producer has elevated the fundraising event programs of many non-profit clients and helped them raise thousands of dollars each year.

In 2019, Ryan was honored to win the Special Events Magazine Gala Awards Best Event Produced for a Nonprofit Organization. It was a high point in his long career as a premier event producer, but by no means a laurel to rest upon! Other awards in Ryan's repertoire include the 2015 BizBash, Event Designer of the year. Ryan and his energetic team are poised for greatness in this new decade in which he will continue to hone his craft as an event producer and enrich his chosen industry as an educator and mentor to others looking to harness the power of cause-related events.

Zynger Events ... Making the world better one event at a time.

### CAUSE-RELATED EVENTS

The bedrock of Zynger Events is cause-related events. It's at our very core to produce fundraising and charity events. Our team has extensive experience working with and managing committees and multiple stakeholders. The opportunity to work with a cross section of teams is something we relish. We thrive on complex projects and ensuring everyone involved — from planning to production — has a positive, engaging experience.
